

Master Services Agreement

Standard Digital Processing & Technology Framework

Provider:	SignPro Technologies Private Limited	Effective Date:	Upon Final Execution
Client:	Acme Global Corporation Inc.	Review Period:	14 Business Days

1. SCOPE OF ENGAGEMENT

This Master Services Agreement ("Agreement") defines the general framework under which Provider will supply advanced cloud workflow automation, cryptographically secured signature integrations, and identity verification modules to the Client. Specific deliverables, project schedules, and associated commercials will be formalized through subsequent Statements of Work (SOW).

2. SERVICES & DEPLOYMENT SCHEDULE

The implementation roadmap is broken down into structured technical milestones designed to ensure seamless platform adoption and compliance verification across corporate entities:

Milestone	Description / Deliverable	Target Timeline
Phase 01	API Environment provisioning and Core PKI structural integration.	Weeks 1 - 2
Phase 02	Custom UI/UX workflow skinning matching corporate layout directives.	Weeks 3 - 5
Phase 03	User acceptance testing (UAT) and operational compliance sign-off.	Week 6

3. CONFIDENTIALITY & SECURITY MANDATES

Both parties agree to protect all proprietary knowledge, application access metrics, and metadata with standard industry security thresholds. Data processing and storage modules shall conform dynamically to modern information security benchmarks and regional privacy protocols.

4. EXECUTION & DIGITAL CONSENT

By executing below, both parties officially endorse this Agreement. Execution via standard corporate e-signature systems fulfills all local legal criteria governing binding electronic consent frameworks.
